

# DCAT ValueChainINSIGHTS

The essential resource on pharmaceutical manufacturing, sourcing/procurement, and supply management.

Sign up for *VCI* at the DCAT website at [www.dcat.org](http://www.dcat.org).

*DCAT Value Chain Insights (VCI)* is the industry's essential information resource from the Drug, Chemical & Associated Technologies Association (DCAT) on pharmaceutical development, manufacturing, and the supply chain.

*VCI* is delivered electronically each Wednesday and housed at the DCAT website ([www.dcat.org](http://www.dcat.org)). It is tailored for senior to mid-level executives of pharma/biopharm companies, contract manufacturers, and suppliers engaged in the entire value chain from drug substances to drug products to packaging and logistics.

*VCI* covers drug substances (small molecules and biologics) and drug products (solid dosage, parenterals, and specialty dosage forms) as well as packaging, logistics, and related supply-chain issues.

Through expert interviews, discussions, and market analysis, *VCI* provides need-to-know information to keep pace with a changing marketplace:

- **VCI Market Watch:** Analysis of the performance and projections for key industry segments.
- **VCI in Focus:** In-depth analysis of key segments of the pharmaceutical manufacturing value chain.
- **VCI Executive Insights: The Newsmakers:** Strategies of leading executives from the pharmaceutical companies making the news.
- **VCI Best Practices:** Peer insight on the organizational, operational, and management for sourcing, procurement, and supply management.
- **VCI Headliners and The VCI Debrief:** Delivered in every issue, a roundup of the top news from pharmaceutical and biopharmaceutical companies, contract manufacturers, and suppliers. Plus the latest regulatory and compendial developments.

See *VCI*'s 2016 Editorial Calendar.
